DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, and 10-17, drawn to an optical waveguide, classified in class 385, subclass 123.
 - II. Claims 6-9, drawn to an optical waveguide apparatus, classified in class 385, subclass 8+.
 - III. Claims 18-24, drawn to a method for making an optical waveguide, classified in class 65, subclass 399.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as an optical waveguide made of material which affects the propagation of light within the waveguide. See MPEP § 806.05(d).

3. Inventions I, II, and III are related as process of making and product made. The inventions are distinct if either or both of the following can be shown:
(1) that the process as claimed can be used to make other and materially

different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the optical waveguide of Group I, and II can be made by another and materially different process.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
